Full-Stack Engineer with 5+ years building scalable platforms and AI-powered products across enterprise and consumer domains.

WORK EXPERIENCE

Founder & Freelance Full-Stack Engineer

May 2025 – Now

Golden Smile Dental Clinic (Paid Client Project)

- Designed and delivered a production website for a dental clinic serving patients in Burnaby, BC.
- Built service pages, provider profiles, appointment workflows, and **SEO-focused experiences**.
- Managed client requirements and end-to-end project delivery independently.

ChatGPTFocus

- Created a **Chrome extension** that highlights and summarizes ChatGPT responses, reducing reading time by up to 80%.
- Grew to 200+ installs via organic community engagement on Reddit and product-led growth strategies.
- Stack: Next.js, TypeScript, Supabase, Vercel AI SDK, WXT framework.

VietHub.pro

- Built and launched a 5-in-1 platform for the Vietnamese diaspora featuring services, jobs, news, and **real-time grocery deal comparison** from T&T, Costco, No Frills, and Real Canadian Superstore.

BC Ferries — Intermediate Application Developer

Feb 2024 – Apr 2025

- Developed and maintained e-commerce systems using **SAP Commerce Cloud (Hybris)**.
- Integrated enterprise systems using **Java, Spring, and frontend technologies**.
- Collaborated cross-functionally on QA and documentation to ensure high system reliability.

One Ocean Group Ltd. — Full-Stack Software Engineer

Jul 2021 – Jan 2024

- Led development of **maritime compliance systems** aligned with global regulations.
- Co-built **Regs4ships**, a platform used onboard vessels for real-time regulatory access.
- Delivered scalable solutions using **Angular, .NET, Azure, and REST APIs**
